

PRESENTATION OF PARTNER SERWIS SP. Z O.O.

OUR COMMITMENT BUILDS OUR REPUTATION

Partner Serwis is a nationwide multi-shop company providing a wide range of services for the majority of industries in Poland. High specialization of competences developed by the individual divisions, years of technical expertise and practical knowledge of technology used by its Clients enable the company to offer a comprehensive range of industrial services.

Acquired skills enable Partner Serwis to offer comprehensive maintenance services of drive systems, modernization of selected machinery and equipment, solutions to improve the production process and facilitate productive maintenance of the machinery and production equipment. The company provides its services in the shop and on-site.

Partner Serwis offers:

- maintenance of AC/DC rotating machinery as well as entire drive systems,
- comprehensive maintenance of process and production lines,
- expertise in the field of repairs of low, medium and high voltage electric motors,
- maintenance of industrial equipment, such as transformers, pincers, electromagnets, fans, pumps, gears, lifting equipment,
- services in the field of electric power engineering, automation and security,
- manufacture of eddy current starters for electric motors, authorized for use in the mining industry,
- distribution of Siemens, WEG and AC Motoren electric motors,
- Solution Partner of Siemens in the field of system start-up, regulated drives and automation,
- wide range of services (diagnostics, measurements, design, installation, assembly, comprehensive maintenance, inspection, conservation, repairs, start-ups, modernization, automation, audits and training, as well as sales of electric motors and spare parts)

The company also sells electrical equipment and spare parts from leading world producers.

Partner Serwis has received awards for innovative developments and solutions in the field of technology and engineering, including development and production of WIRLEG eddy current starters for electric motor start-ups, which have been approved by the State Mining Authority for use in the underground mining industry, as well as development and implementation of methods for inducing synchronous motors using permanent magnets.

Partner Serwis has been operating since 2002 and currently consists of seven divisions in Legnica, Gdańsk, Wrocław, Dąbrowa Górnicza, Kwidzyń, Elbląg and Olsztyn, providing industrial services and employing a total of approx. 500 people.
